### Profiles

[in ahmadnadeem6236](#)

[ahmadnadeem6236](#)

### Skills

#### Programming Languages

JavaScript/TypeScript, Python, php, C/C#

#### Framework and Libraries

Nodejs, Django, ReactJS, VueJS, Angular, NextJS, ExpressJS

#### Database

MySQL, PostgresSQL, VectorDB, MongoDB, NoSQL

#### Cloud Technologies

AWS, GCP, Docker, Kubernetes, Linux

#### Other/Tools

REST APIs, Unit Testing, NLP, Git, Selenium, Playwright, LLM, Git Action

### Certifications

#### Full-Stack Development

100xDevs

2024

#### Data Structure & Algorithms in Python

Coding Ninja

2023

A Software Engineer with **2+** experience in **Full-Stack Development, Cloud Technologies, and AI-driven solutions**. Demonstrated proficiency in delivering Scalable products, Automating workflows, and Generating business value within Agile teams.

### Experience

#### Pivony

July 2024 - August 2025

Full Stack Developer

Istanbul, Turkey

🌐 <https://www.pivony.com/>

- Built customer-facing dashboards in **React.js** with charts, filters, and role-based access, improving data visibility for 200+ active users.
- Designed and deployed **Django REST APIs** to handle survey analytics and sentiment analysis, integrating with third-party NLP services.
- Developed a **web scraper for Google Maps reviews**, achieving ~90% accuracy in extracting location-based feedback data for analytics.
- Optimized data pipelines by cleaning and normalizing unstructured reviews, reducing processing errors by 25%.
- Worked closely with product managers to ship features in **2-week Agile sprints**, ensuring timely delivery of client requests.

**Tech Stack:** React.js, Django REST Framework, PostgreSQL, Docker, AWS, Python (Scrapy/BeautifulSoup/Requests)

#### CloudQA

December 2023 - May 2024

Software Developer

Hyderabad, India

🌐 <https://cloudqa.io/>

- Migrated legacy documentation to **DocuSaurus**, improving clarity and reducing onboarding time for new developers.
- Developed a fully automated **API for OTP extraction from emails**, reducing manual QA effort by **40%** and accelerating test cycles.
- Built and maintained advanced **snapshot testing features** using **Selenium and Playwright**, expanding test coverage and improving product stability.
- Collaborated with cross-functional teams to enhance **testing workflows on AWS**, ensuring high availability and scalability.

**Tech Stack:** VueJS, NuxtJS, Python, AWS, REST APIs, Unit Testing, NLP

#### Avrio

January 2023 - July 2023

Full Stack Developer

Delhi, India

🌐 <https://avrio.energy/>

- Designed and implemented a scalable **landing page with reusable React components**, reducing development effort for future pages by **30%**.
- Engineered an **OCR-based electric bill analysis tool** that achieved **80% accuracy**, automating reporting tasks and saving analysts several hours weekly.
- Built and deployed **Django REST APIs** with Docker containers, ensuring secure and efficient backend services.
- Actively contributed to Agile sprints, improving product delivery speed and strengthening collaboration with senior engineers.

**Tech Stack:** ReactJS, php, Python, Django REST Framework, Git, Docker

### Education

#### Jamia Hamdard University

2021 to 2025

CSE (Artificial Intelligence)

Bachelor's in Computer Science

### Projects

#### Resume Hint (Generative AI Resume Analysis Tool)

2025

Developer

🌐 <https://github.com/ahmadnadeem6236/Resumehint>

- Architected an AI-powered app using LLMs to analyze resumes and tailor advice for job applications.
- Integrated Django (DRF), PostgreSQL, and advanced AI models—achieved 70% content similarity versus job descriptions for relevance.

Python, Django, Django - DRF, React.js, Next.js, LLMs, NLP, Docker

#### Real-Time Chat Application

2024

Full Stack Developer

🌐 <https://github.com/ahmadnadeem6236/chatApp>

- Created a full-featured chat app leveraging Node.js (backend), React (frontend), and WebSocket ([Socket.io](#)).
- Developed secure JWT-based authentication for 100+ concurrent users and optimized MongoDB schema for chat data.

Node.js, React.js, WebSocket, Express.js, MongoDB
